

Your trusted medicinal cannabis partner

TGA
approvals
for over 50
different
conditions

Total
patient
cost \$303*

Patient criteria for medicinal cannabis:

- Diagnosis of a chronic condition (e.g. chronic pain, arthritis, sleep disorder, anxiety, etc.)
- Has tried other medications with limited effect or negative side effects

Simple four step process for you and your patients

1. Refer your patient

Use the online referral form to refer your patient to a Tetra Health Physician

2. Nurse assessment

A Tetra Health Nurse will contact your patient within 24 hours to perform a detailed assessment. This includes screening for contraindications and potential drug interactions

3. TGA approval

A Tetra Health Physician will consult with your patient and seek necessary approvals. Once approved (24-48 hours), the Physician will organise for the medication to be dispensed by Pharmacy

4. Progress report

A Tetra Health Nurse monitors your patient and sends regular progress reports for your records. This includes details on medications prescribed and patient outcomes.

Why partner with Tetra Health?

- Specialists in medicinal cannabis
- Nurse supported treatment
- CPD Accredited Training
- Product agnostic (Over 30 TGO93 approved medications)
- Patient progress reporting
- 1800 Support line
- Assistance for prescribers
- Adverse event monitoring

"Tetra Health provides me with administrative assistance and nursing support, minimising my efforts on routine tasks. The addition of medicinal cannabis in my practice has reduced opiate prescribing and my patients report an improved quality of life and are in more control of their symptoms"

- Prof Stephen Clarke, Medical Oncologist
